Skills

 Solidity	 React
 JavaScript	 Python
 TypeScript	 Ethers / Web3.js
 Hardhat	 HTML & CSS
 Git	 Ethereum (EVM)
 Graphic Design	 Agile

Employment History

Blockchain Software Developer at Nevam

August 2021 — June 2022

A part-time, remote position for a web3 start-up building a social media platform for NFT artists to express themselves via their own created metaverses.

- My responsibilities included working with a team of developers and designers to build a blockchain-based social media web app using React, TypeScript, Bootstrap and Ethers.
- Planning, writing, and testing the smart contract for an ERC-1155 NFT collection on Polygon using Solidity, Chai, OpenZeppelin and Hardhat.
- Learned how to work in an agile team environment, use tools like Confluence, Jira and Bitbucket, able to work autonomously.
