Work

Blockchain Developer @ Nevam
August 2021 - June 2022

Nevam is a Web3 start-up aiming to build a decentralized social media platform for NFT artists to express themselves through their personally created 3D metaverses.

- Planned and built an NFT smart contract using Solidity, Hardhat and OpenZeppelin, wrote extensive tests using Chai and audited the contract using Mythril.

- Built a decentralized social media web app using React, CSS, Bootstrap and Ethers.

- Learned how to work in an agile team environment, use tools like Confluence, Jira and Bitbucket, able to work autonomously.
